**Date: 11-03-2014**

### To Whom it may Concern

This is to certify that theoretically calculated Centre of Gravity of **30,000 Ltrs.,** Single Compartment Water Tank Semi Trailer, is **1900 mm** (approx) from ground level.

This certificate is valid for

- Product – Brackish Water Tank Semi Trailer (2 x 16 Ton wide track Bogie axle)
- Capacity – 30,000 Ltrs
- Year 2014
- Skid Mounted Tank Semi Trailer Chassis No. – GICW 140002

Parameters considered for Theoretical CG calculations

1. Tank Semi Trailer usable capacity – 30,000 Litres
2. Content – Non Drinking Water (specific gravity = 1)
3. Tank semi trailer weight + payload = 11000 + 30000 Kg
4. Tank is considered with rated capacity
5. Tank semi trailer is considered for CG calculation, and all weight of accessories have been considered in calculation.
6. Centre of Gravity is calculated on weight basis only

**GORICA Tankers** are designed and built as per International Standards meeting ADR Standards dealing with Road Tankers.
